Learning Center

Department of Psychiatry

As an extension to the Department of Psychiatry's services, the AUBMC **gnimæJ** Center is an outpatient multi-disciplinary setting providing specialized assessments, interventions, referrals, awareness, training and research to a wider population of persons with learning difficulties, their parents and other professionals involved.

OUR MISSION

The AUBMC **gnimæJ** Center's mission is:

- To provide persons (toddlerhood to adulthood) with special educational needs with comprehensive, professional and individualized care to optimize their learning and behavioral skills - and in return, their wellbeing.
- To provide training and education to parents and other medical, rehabilitation and educational professionals in the community about persons with learning and behavioural difficulties.
- To conduct innovative and scientific research to benefit persons with learning and behavioural difficulties and their families.

TARGET POPULATION

The AUBMC **gnimæJ** Center will serve individuals (toddlers, children, adolescents, adults) experiencing difficulties in their academic achievements and behavioral skills stemming from various conditions such as:

- Attention deficit and hyperactivity disorder (ADHD)
- Specific learning disorders (with impairment in reading writing or mathematics)
- Intellectual development disorder
- Emotional and behavioral conditions/difficulties
- Illiteracy or poor literacy
- Language disorders
- Developmental coordination disorder

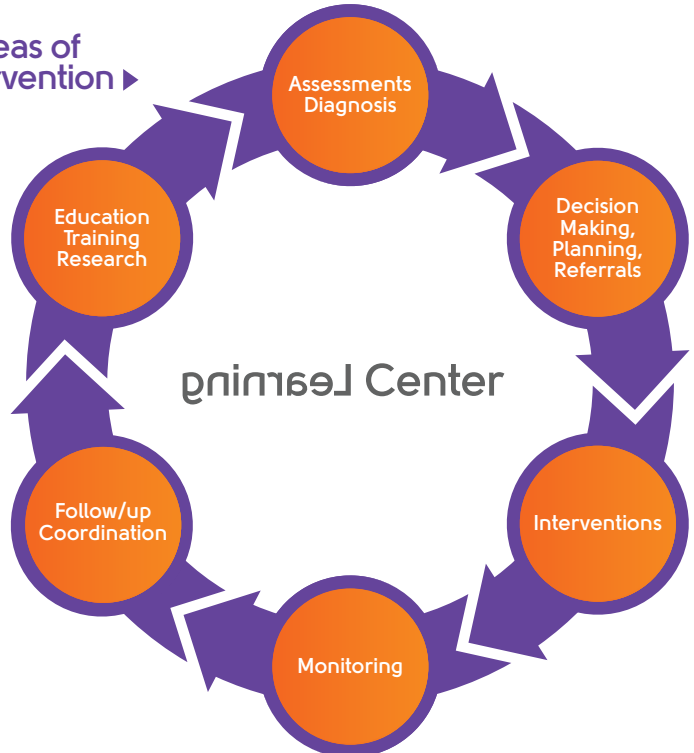

OUR SERVICES

- Assessments and interventions done by the following professionals: special education teachers, speech therapists, occupational or psychomotor therapists and educational psychologists and the department's mental health clinicians.
- Individualized educational and rehabilitation plans to be implemented in homes, and educational, or vocational settings
- Training parents on the best educational, behavioral-emotional, language and motor practices based on the children's individual needs
- Training professionals, residents and interns on learning and behavioral difficulties
- Designing tools in relation to learning and behavioral difficulties

Areas of intervention ►

HOW WE WORK
